Introduction

This fifth version of *Federal Historic Preservation Laws* contains 28 federal laws and portions of laws that pertain to the preservation of the United States' cultural heritage. Arranged chronologically, this publication demonstrates how the body of law has developed and grown over the course of the 20th century and beyond. Because of the variety and number of Federal statutes that contain some historic preservation component, this publication focuses on those statutes that are of key importance to historic preservation and cultural resources work. For many of the statutes in this publication, only the most pertinent sections are included. Though local communities have long been at the forefront of historic preservation initiatives, this book focuses exclusively on the development of Federal law and policy surrounding historic resources. Past versions of *Federal Historic Preservation Laws* have helped everyone from government agencies and lawyers, to university professors and everyday citizens, to reference and understand the Federal framework of historic preservation law. This newest update aims to build on that function by presenting recent changes in the law in an intuitive format so that that groups and individuals may continue to draw upon it as a tool to preserve what makes their communities special.

The National Park Service always has operated at the core of the Federal historic preservation program. From its creation in 1916, the National Park Service assumed responsibility for the many historical and cultural sites of the National Park System. Over the years, the size and scope of historic preservation laws have expanded to include protection and recognition of historic resources across all levels of government and on public, tribal, and private land alike. In 1935, the Historic Sites Act initiated the national survey and documentation of historic resources, implemented through the National Park Service. The National Historic Preservation Act of 1966 revolutionized the preservation landscape by establishing a federal/state partnership program for historic preservation projects and funding as well as creating the National Register of Historic Places and a system for review of federal effects on historic sites (commonly known as Section 106). This Act tasked the National Park

Introduction

Service with coordination between the Federal and State governments on historic preservation issues by forming a program of direct grants and technical assistance from the National Park Service to State Historic Preservation Offices. Amendments made in 1980 and 1992 expanded the program to create a community-based preservation partnership with the Certified Local Government initiative, and to honor Native American Tribes and their heritage with the creation of Tribal Historic Preservation Offices to mirror the State programs. The Act also created the Advisory Council on Historic Preservation, which develops procedures that facilitate Federal agency compliance work. Today, partnerships between the National Park Service, State Historic Preservation Offices, Certified Local Governments, Tribal Historic Preservation Offices, nonprofit preservation organizations, and individual property owners make up the National Historic Preservation Partnership Program.

Outside of the National Park Service, a variety of programs and laws protect historic resources in many ways. Other Federal agencies engage in preservation through ownership of historic buildings, or through their own initiatives. The Internal Revenue Code includes provisions to encourage historic preservation through tax incentives for work on historic structures. Additional laws found in the book create programs to address specific issues ranging from survey and preservation of abandoned shipwrecks, to protection and repatriation of Native American cultural items, to treatment of battlefields on American soil. Furthermore, these Federal programs operate within a broader universe preservation law at the State, Tribal, and local level. Many States have historic preservation tax incentives in addition to the federal program, and local historic designation operates under a distinct process with different protections from the National Register. While this book focuses on the Federal perspective, government preservation programs at all levels complement one another and provide a broad range of benefits and incentives to ensure that the beauty and knowledge of America's historic resources can be enjoyed by generations to come.

Introduction

The State, Tribal, Local, Plans and Grants division, part of Cultural Resources, Partnerships and Science within the National Park Service, prepared this publication. John Renaud and Jessica Goodman arranged and edited the text. Matthew Payne designed the publication.

This publication includes text consistent with current law as of December 31, 2017. While the online version of this text will be updated periodically to reflect changes in the law, revisions may not be available immediately. To access the most up-to-date version of any law, regulation, or executive order printed in this book, see the official text in the United States Code, the Code of Federal Regulations, or the Federal Register. All three are available online at uscode.house.gov, www.ecfr.gov, and www.federalregister.gov, respectively.

For questions regarding the implementation or interpretation of the statutes in this publication, contact the National Park Service, 1849 C Street NW, Washington DC 20240-0001, or the relevant Federal agency. Electronic copies of this publication, along with additional resources regarding Federal historic preservation law, can be found at go.nps.gov/preservationlaws.

Many, though not all, of the laws contained in this book are found in Title 54 of the United States Code. Congress enacted Title 54 in 2014 in order to simplify citations and provide room for expansion in the body of law surrounding the National Park Service and the programs that it administers, including historic preservation programs. To do this, Congress gathered all the relevant laws which were spread throughout the Code (mostly in Title 16), repealed them, and reenacted them in their new Title 54 home. This process did not change the substance or meaning of any of the laws involved, but it did reorganize them and make several standard changes in language for consistency throughout the title. Overall, the changes made in Title 54 make the law more cohesive and practical, but the unusual nature of the process has affected this publication in several ways. Tips for using this document:

1. Due to the long history of historic preservation law, guidance documents and historic preservationists often refer to important components of these laws by their original section numbers instead of the new numbers given to them in Title 54. To accommodate this fact, each law in this book follows the organization and structure of the original act while using the updated language from Title 54.
2. Like the rest of the book, laws from Title 54 are arranged with two columns: the text of the law in the right column with corresponding citations to the Code on the left. The reorganization of Title 54 included moving sections together that were related, and occasionally splitting sections into multiple parts where they were not. Title 54 also is organized using only odd numbered chapters to create room for additions and expansions of related law in the future. This means that the left hand citations in this book are frequently out of numerical order so that the text on the right hand side can read as originally organized.
3. Occasionally, Congress combined two or more sections of the original act to create a single section in Title 54. In these cases, the citation on the left will be marked with an asterisk (*) to indicate that it will appear multiple times and also that the text it corresponds with is not the complete section of the Code.
4. The definitions sections of each Act are especially important because of the language changes made to Title

Editors' Note: Title 54

54. While some might be self-explanatory, many are terms which Congress truncated for consistency and are not as intuitive. For example, Congress replaced the phrase “historic and prehistoric resources” with the term “historic property” because the definition of “historic property” includes places of historic and prehistoric significance, and artifacts as well as buildings and land.
5. In general, the text in this book follows the language of Title 54. When following the language of the United States Code, we have added citations to the Act as known to the historic preservation community. These editorial changes, as well as any additional notes or clarifications, are indicated by [brackets] in the text.
 6. All citations in this book are current, but a conversion table between old Title 16 citations and updated locations in Title 54 is available in the United States Code immediately after the Table of Contents for Title 54.
 7. Through other acts of repeal and reenactment, Congress has given other titles of the United States Code the effect of “positive law,” just as it has done with Title 54. As of the date of publication for this document, the following titles with laws in this book have the force of positive law; 10, 18, 23, 28, 40, and 49

With these points in mind, this publication and its organization should help bridge the gap between previous versions of historic preservation laws and Title 54 for preservationists, academics, lawyers and historians alike. National Historic Preservation Act

First passed in 1966, the National Historic Preservation Act revolutionized the world of historic preservation when it established systems and standards for coordinating historic preservation efforts between the federal government and state, local, and tribal governments. It remains the most expansive legislation about historic preservation in the United States. In 2014, Congress reorganized all laws regarding the National Park Service, including this Act, by moving them to Title 54 of the U.S. Code. For more information about this change and how it affects this document, please see the Editors' Note on Title 54 in the front of this book. In this law, unless specified to the contrary, "Secretary" refers to the Secretary of the Interior.

Purpose of the Act

Section 1

[Not repealed but omitted from the text of Title 54]

- (a) This Act may be cited as the "National Historic Preservation Act."
- (b) The Congress finds and declares that—
- (1) the spirit and direction of the Nation are founded upon and reflected in its historic heritage;
 - (2) the historical and cultural foundations of the Nation should be preserved as a living part of our community life and development in order to give a sense of orientation to the American people;
 - (3) historic properties significant to the Nation's heritage are being lost or substantially altered, often inadvertently, with increasing frequency;
 - (4) the preservation of this irreplaceable heritage is in the public interest so that its vital legacy of cultural, educational, aesthetic, inspirational, economic, and energy benefits will be maintained and enriched for future generations of Americans;
 - (5) in the face of ever-increasing extensions of urban centers, highways, and residential, commercial, and industrial developments, the present governmental and nongovernmental historic preservation programs and activities are inadequate to insure future generations a genuine opportunity to appreciate and enjoy the rich heritage of our Nation;
 - (6) the increased knowledge of our historic resources, the establishment of better means of identifying and administering them, and the encouragement of their preservation

National Historic Preservation Act

will improve the planning and execution of Federal and federally assisted projects and will assist economic growth

(7) although the major burdens of historic preservation have been borne and major efforts initiated by private agencies and individuals, and both should continue to play a vital role, it is nevertheless necessary and appropriate for the Federal Government to accelerate its historic preservation programs and activities, to give maximum encouragement to agencies and individuals undertaking preservation by private means, and to assist State and local governments and the National Trust for Historic Preservation in the United States to expand and accelerate their historic preservation programs and activities.

54 U.S.C. 300101
Policy

Section 2

It is the policy of the Federal Government, in cooperation with other nations and in partnership with States, local governments, Indian tribes, Native Hawaiian organizations, and private organizations and individuals to—

- (1) use measures, including financial and technical assistance, to foster conditions under which our modern society and our historic property can exist in productive harmony and fulfill the social, economic, and other requirements of present and future generations;
- (2) provide leadership in the preservation of the historic property of the United States and of the international community of nations and in the administration of the national preservation program;
- (3) administer federally owned, administered, or controlled historic property in a spirit of stewardship for the inspiration and benefit of present and future generations;
- (4) contribute to the preservation of nonfederally owned historic property and give maximum encouragement to organizations and individuals undertaking preservation by private means;

National Historic Preservation Act

- (5) encourage the public and private preservation and utilization of all usable elements of the Nation’s historic built environment; and
- (6) assist State and local governments, Indian tribes and Native Hawaiian organizations, and the National Trust to expand and accelerate their historic preservation programs and activities.

Protection and Enhancement of
the Cultural Environment

Executive Order 11593. Protection and Enhancement of the Cultural Environment

Ex. Ord. No. 11593, May 13, 1971, 36 F.R. 8921, provided:

By virtue of the authority vested in me as President of the United States and in furtherance of the purposes and policies of the National Environmental Policy Act of 1969 (83 Stat. 852, 42 U.S.C. 4321 et seq.), the National Historic Preservation Act of 1966 (80 Stat. 915, [former] 16 U.S.C. 470 et seq.) [see 54 U.S.C. 300101 et seq.], the Historic Sites Act of 1935 (49 Stat. 666, [former] 16 U.S.C. 461 et seq.) [see 18 U.S.C. 1866(a), 54 U.S.C. 102303, 102304, 320101 et seq.], and the Antiquities Act of 1906 (34 Stat. 225, 16 [former] U.S.C. 431 et seq.) [see 18 U.S.C. 1866(b), 54 U.S.C. 320301(a) to (c), 320302, 320303], it is ordered as follows:

SECTION 1. *Policy.* The Federal Government shall provide leadership in preserving, restoring and maintaining the historic and cultural environment of the Nation. Agencies of the executive branch of the Government (hereinafter referred to as “Federal agencies”) shall (1) administer the cultural properties under their control in a spirit of stewardship and trusteeship for future generations, (2) initiate measures necessary to direct their policies, plans and programs in such a way that federally owned sites, structures, and objects of historical, architectural or archaeological significance are preserved, restored and maintained for the

National Historic Preservation Act

inspiration and benefit of the people, and (3), in consultation with the Advisory Council on Historic Preservation ([former] 16 U.S.C. 470i [see 54 U.S.C. 304101]), institute procedures to assure that Federal plans and programs contribute to the preservation and enhancement of non-federally owned sites, structures and objects of historical, architectural or archaeological significance.

SEC. 2. Responsibilities of Federal agencies. Consonant with the provisions of the acts cited in the first paragraph of this order, the heads of Federal agencies shall:

(a) no later than July 1, 1973, with the advice of the Secretary of the Interior, and in cooperation with the liaison officer for historic preservation for the State or territory involved, locate, inventory, and nominate to the Secretary of the Interior all sites, buildings, districts, and objects under their jurisdiction or control that appear to qualify for listing on the National Register of Historic Places.

(b) exercise caution during the interim period until inventories and evaluations required by subsection (a) are completed to assure that any federally owned property that might qualify for nomination is not inadvertently transferred, sold, demolished or substantially altered. The agency head shall refer any questionable actions to the Secretary of the Interior for an opinion respecting the property's eligibility for inclusion on the National Register of Historic Places. The Secretary shall consult with the liaison officer for historic preservation for the State or territory involved in arriving at his opinion. Where, after a reasonable period in which to review and evaluate the property, the Secretary determines that the property is likely to meet the criteria prescribed for listing on the National Register of Historic Places, the Federal agency head shall reconsider the proposal in light of national environmental and preservation policy. Where, after such reconsideration, the Federal agency head proposes to transfer, sell, demolish or substantially alter the property he shall not act with respect to the property until the Advisory Council on Historic Preservation shall have been provided an opportunity to comment on the proposal.

National Historic Preservation Act

(c) initiate measures to assure that where as a result of Federal action or assistance a property listed on the National Register of Historic Places is to be substantially altered or demolished, timely steps be taken to make or have made records, including measured drawings, photographs and maps, of the property, and that copy of such records then be deposited in the Library of Congress as part of the Historic American Buildings Survey or Historic American Engineering Record for future use and reference. Agencies may call on the Department of the Interior for advice and technical assistance in the completion of the above records.

(d) initiate measures and procedures to provide for the maintenance, through preservation, rehabilitation, or restoration, of federally owned and registered sites at professional standards prescribed by the Secretary of the Interior.

(e) submit procedures required pursuant to subsection (d) to the Secretary of the Interior and to the Advisory Council on Historic Preservation no later than January 1, 1972, and annually thereafter, for review and comment.

(f) cooperate with purchasers and transferees of a property listed on the National Register of Historic Places in the development of viable plans to use such property in a manner compatible with preservation objectives and which does not result in an unreasonable economic burden to public or private interests.

SEC. 3. *Responsibilities of the Secretary of the Interior.* The Secretary of the Interior shall:

(a) encourage State and local historic preservation officials to evaluate and survey federally owned historic properties and, where appropriate, to nominate such properties for listing on the National Register of Historic Places.

(b) develop criteria and procedures to be applied by Federal agencies in the reviews and nominations required by section 2(a). Such criteria and procedures shall be developed in consultation with the affected agencies.

National Historic Preservation Act

(c) expedite action upon nominations to the National Register of Historic Places concerning federally owned properties proposed for sale, transfer, demolition or substantial alteration.

(d) encourage State and Territorial liaison officers for historic preservation to furnish information upon request to Federal agencies regarding their properties which have been evaluated with respect to historic, architectural or archaeological significance and which as a result of such evaluations have not been found suitable for listing on the National Register of Historic Places.

(e) develop and make available to Federal agencies and State and local governments information concerning professional methods and techniques for preserving, improving, restoring and maintaining historic properties.

(f) advise Federal agencies in the evaluation, identification, preservation, improvement, restoration and maintenance of historic properties.

(g) review and evaluate the plans of transferees of surplus Federal properties transferred for historic monument purposes to assure that the historic character of such properties is preserved in rehabilitation, restoration, improvement, maintenance and repair of such properties.

(h) review and comment upon Federal agency procedures submitted pursuant to section 2(e) of this order.

Executive Order 13287. Preserve America

Ex. Ord. No. 13287, Mar. 3, 2003, 68 F.R. 10635, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Historic Preservation Act ([former] 16 U.S.C. 470 *et seq.*) [see 54 U.S.C. 300301 *et seq.*] (NHPA) and the National Environmental Policy Act [of 1969] (42 U.S.C. 4321 *et seq.*), it is hereby ordered:

SECTION 1. *Statement of Policy.* It is the policy of the Federal Government to provide leadership in preserving America’s heritage by actively advancing the protection, enhancement, and contemporary use of the historic properties owned by the Federal Government, and by promoting intergovernmental cooperation and partnerships for the preservation and use of historic properties. The Federal Government shall rec-

National Historic Preservation Act

ognize and manage the historic properties in its ownership as assets that can support department and agency missions while contributing to the vitality and economic wellbeing of the Nation's communities and fostering a broader appreciation for the development of the United States and its underlying values. Where consistent with executive branch department and agency missions, governing law, applicable preservation standards, and where appropriate, executive branch departments and agencies ("agency" or "agencies") shall advance this policy through the protection and continued use of the historic properties owned by the Federal Government, and by pursuing partnerships with State and local governments, Indian tribes, and the private sector to promote the preservation of the unique cultural heritage of communities and of the Nation and to realize the economic benefit that these properties can provide. Agencies shall maximize efforts to integrate the policies, procedures, and practices of the NHPA and this order into their program activities in order to efficiently and effectively advance historic preservation objectives in the pursuit of their missions.

SEC. 2. Building Preservation Partnerships. When carrying out its mission activities, each agency, where consistent with its mission and governing authorities, and where appropriate, shall seek partnerships with State and local governments, Indian tribes, and the private sector to promote local economic development and vitality through the use of historic properties in a manner that contributes to the long term preservation and productive use of those properties. Each agency shall examine its policies, procedures, and capabilities to ensure that its actions encourage, support, and foster publicprivate initiatives and investment in the use, reuse, and rehabilitation of historic properties, to the extent such support is not inconsistent with other provisions of law, the Secretary of the Interior's Standards for Archeology and Historic Preservation, and essential national department and agency mission requirements.

SEC. 3. Improving Federal Agency Planning and Accountability. (a) Accurate information on the state of Federally owned historic properties is essential to achieving the goals

National Historic Preservation Act

of this order and to promoting community economic development through local partnerships. Each agency with real property management responsibilities shall prepare an assessment of the current status of its inventory of historic properties required by section 110(a)(2) of the NHPA ([former] 16 U.S.C. 470h-2(a)(2)) [see 54 U.S.C. 306102], the general condition and management needs of such properties, and the steps underway or planned to meet those management needs. The assessment shall also include an evaluation of the suitability of the agency's types of historic properties to contribute to community economic development initiatives, including heritage tourism, taking into account agency mission needs, public access considerations, and the long-term preservation of the historic properties. No later than September 30, 2004, each covered agency shall complete a report of the assessment and make it available to the Chairman of the Advisory Council on Historic Preservation (Council) and the Secretary of the Interior (Secretary).

(b) No later than September 30, 2004, each agency with real property management responsibilities shall review its regulations, management policies, and operating procedures for compliance with sections 110 and 111 of the NHPA [former] (16 U.S.C. 470h-2 & 470[h]-3 [see 54 U.S.C. 306101 to 306107, 306109 to 306114, 306121, 306122]) and make the results of its review available to the Council and the Secretary. If the agency determines that its regulations, management policies, and operating procedures are not in compliance with those authorities, the agency shall make amendments or revisions to bring them into compliance.

(c) Each agency with real property management responsibilities shall, by September 30, 2005, and every third year thereafter, prepare a report on its progress in identifying, protecting, and using historic properties in its ownership and make the report available to the Council and the Secretary. The Council shall incorporate this data into a report on the state of the Federal Government's historic properties and their contribution to local economic development and submit this report to the President by February 15, 2006, and every third year thereafter.

National Historic Preservation Act

(d) Agencies may use existing information gathering and reporting systems to fulfill the assessment and reporting requirements of subsections 3(a)–(c) of this order. To assist agencies, the Council, in consultation with the Secretary, shall, by September 30, 2003, prepare advisory guidelines for agencies to use at their discretion.

(e) No later than June 30, 2003, the head of each agency shall designate a senior policy level official to have policy oversight responsibility for the agency's historic preservation program and notify the Council and the Secretary of the designation. This senior official shall be an assistant secretary, deputy assistant secretary, or the equivalent, as appropriate to the agency organization. This official, or a subordinate employee reporting directly to the official, shall serve as the agency's Federal Preservation Officer in accordance with section 110(c) of the NHPA [see 54 U.S.C. 306104]. The senior official shall ensure that the Federal Preservation Officer is qualified consistent with guidelines established by the Secretary for that position and has access to adequate expertise and support to carry out the duties of the position.

SEC. 4. *Improving Federal Stewardship of Historic Properties.*

(a) Each agency shall ensure that the management of historic properties in its ownership is conducted in a manner that promotes the long-term preservation and use of those properties as Federal assets and, where consistent with agency missions, governing law, and the nature of the properties, contributes to the local community and its economy.

(b) Where consistent with agency missions and the Secretary of the Interior's Standards for Archeology and Historic Preservation, and where appropriate, agencies shall cooperate with communities to increase opportunities for public benefit from, and access to, federally owned historic properties.

(c) The Council is directed to use its existing authority to encourage and accept donations of money, equipment, and other resources from public and private parties to assist other agencies in the preservation of historic properties in Federal ownership to fulfill the goals of the NHPA and this order.

National Historic Preservation Act

(d) The National Park Service, working with the Council and in consultation with other agencies, shall make available existing materials and information for education, training, and awareness of historic property stewardship to ensure that all Federal personnel have access to information and can develop the skills necessary to continue the productive use of Federally owned historic properties while meeting their stewardship responsibilities.

(e) The Council, in consultation with the National Park Service and other agencies, shall encourage and recognize exceptional achievement by such agencies in meeting the goals of the NHPA and this order. By March 31, 2004, the Council shall submit to the President and the heads of agencies recommendations to further stimulate initiative, creativity, and efficiency in the Federal stewardship of historic properties.

SEC. 5. Promoting Preservation Through Heritage Tourism.

(a) To the extent permitted by law and within existing resources, the Secretary of Commerce, working with the Council and other agencies, shall assist States, Indian tribes, and local communities in promoting the use of historic properties for heritage tourism and related economic development in a manner that contributes to the long-term preservation and productive use of those properties. Such assistance shall include efforts to strengthen and improve heritage tourism activities throughout the country as they relate to Federally owned historic properties and significant natural assets on Federal lands.

(b) Where consistent with agency missions and governing law, and where appropriate, agencies shall use historic properties in their ownership in conjunction with State, tribal, and local tourism programs to foster viable economic partnerships, including, but not limited to, cooperation and coordination with tourism officials and others with interests in the properties.

SEC. 6. National and Homeland Security Considerations.

Nothing in this order shall be construed to require any agency to take any action or disclose any information that

National Historic Preservation Act

would conflict with or compromise national and homeland security goals, policies, programs, or activities.

SEC. 7. *Definitions.* For the purposes of this order, the term “historic property” means any prehistoric or historic district, site, building, structure, and object included on or eligible for inclusion on the National Register of Historic Places in accordance with section 301(5) of the NHPA ([former] 16 U.S.C. 470w (5)) [see 54 U.S.C. 300308]. The term “heritage tourism” means the business and practice of attracting and accommodating visitors to a place or area based especially on the unique or special aspects of that locale’s history, landscape (including trail systems), and culture. The terms “Federally owned” and “in Federal ownership,” and similar terms, as used in this order, do not include properties acquired by agencies as a result of foreclosure or similar actions and that are held for a period of less than 5 years.

SEC. 8. *Judicial Review.* This order is intended only to improve the internal management of the Federal Government and it is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

(d) DE MINIMIS IMPACTS.—

(1) REQUIREMENTS.—

Department of Transportation Act

(B) REQUIREMENTS FOR PARKS, RECREATION AREAS, AND WILDLIFE OR WATERFOWL REFUGES.— The requirements of subsection (c)(1) shall be considered to be satisfied with respect to an area described in paragraph (3) if the Secretary determines, in accordance with this subsection, that a transportation program or project will have a de minimis impact on the area. The requirements of subsection (c)(2) with respect to an area described in paragraph (3) shall not include an alternatives analysis.

(C) CRITERIA.— In making any determination under this subsection, the Secretary shall consider to be part of a transportation program or project any avoidance, minimization, mitigation, or enhancement measures that are required to be implemented as a condition of approval of the transportation program or project.

(2) HISTORIC SITES.— With respect to historic sites, the Secretary may make a finding of de minimis impact only if-

(A) the Secretary has determined, in accordance with the consultation process required under section 306108 of title 54, United States Code, that-

(i) the transportation program or project will have no adverse effect on the historic site; or

(B) the finding of the Secretary has received concurrence from the officials with jurisdiction over the park, recreation area, or wildlife or waterfowl refuge.

(e) **SATISFACTION OF REQUIREMENTS FOR CERTAIN HISTORIC SITES.**—

National Marine Sanctuaries Act

SELECTIONS: DESIGNATION, RESEARCH, AND LIMITATIONS

This Act became law on October 23, 1972 (Public Law 92-532, 16 U.S.C. 1431-1445) and has been amended 15 times. This version of the Act follows the organization and structure of the original document while using the updated language from the U.S. Code except that it refers to the law as the “Act” rather than to the “subchapter” or the “title” of the Code. In this law, unless specified to the contrary, “Secretary” refers to the Secretary of Commerce.

16 U.S.C. 1431

Findings, purposes, and policies;
Establishment of system

Section 301

(a) The Congress finds that—

(1) this Nation historically has recognized the importance of protecting special areas of its public domain, but these efforts have been directed almost exclusively to land areas above the high-water mark;

(2) certain areas of the marine environment possess conservation, recreational, ecological, historical, scientific, educational, cultural, archeological, or esthetic qualities which give them special national, and in some cases international, significance;

(3) while the need to control the effects of particular activities has led to enactment of resource-specific legislation, these laws cannot in all cases provide a coordinated and comprehensive approach to the conservation and management of special areas of the marine environment; and

(4) a Federal program which establishes areas of the marine environment which have special conservation, recreational, ecological, historical, cultural, archeological, scientific, educational, or esthetic qualities as national marine sanctuaries managed as the National Marine Sanctuary System will—

(A) improve the conservation, understanding, management, and wise and sustainable use of marine resources;

(B) enhance public awareness, understanding, and appreciation of the marine environment; and

(C) maintain for future generations the habitat, and ecological services, of the natural assemblage of living resources that inhabit these areas.

National Marine Sanctuaries Act

(b) The purposes and policies of this chapter [of Title 16]
[Act] are—

- (1) to identify and designate as national marine sanctuaries areas of the marine environment which are of special national significance and to manage these areas as the National Marine Sanctuary System;
- (2) to provide authority for comprehensive and coordinated conservation and management of these marine areas, and activities affecting them, in a manner which complements existing regulatory authorities;
- (3) to maintain the natural biological communities in the national marine sanctuaries, and to protect, and, where appropriate, restore and enhance natural habitats, populations, and ecological processes;
- (4) to enhance public awareness, understanding, appreciation, and wise and sustainable use of the marine environment, and the natural, historical, cultural, and archeological resources of the National Marine Sanctuary System;
- (5) to support, promote, and coordinate scientific research on, and long-term monitoring of, the resources of these marine areas;
- (6) to facilitate to the extent compatible with the primary objective of resource protection, all public and private uses of the resources of these marine areas not prohibited pursuant to other authorities;
- (7) to develop and implement coordinated plans for the protection and management of these areas with appropriate Federal agencies, State and local governments, Native American tribes and organizations, international organizations, and other public and private interests concerned with the continuing health and resilience of these marine areas;
- (8) to create models of, and incentives for, ways to conserve and manage these areas, including the application of innovative management techniques; and

National Marine Sanctuaries Act

(g) to cooperate with global programs encouraging conservation of marine resources.

(c) There is established the National Marine Sanctuary System, which shall consist of national marine sanctuaries designated by the Secretary [of Commerce] in accordance with this Act.

Sanctuary designation standards

Section 303

(a) The Secretary may designate any discrete area of the marine environment as a national marine sanctuary and promulgate regulations implementing the designation if the Secretary determines that—

National Marine Sanctuaries Act

- (1) the designation will fulfill the purposes and policies of this chapter [of Title 16] [Act];

16 U.S.C. 1433(b)
Factors and consultations
required in making
determinations and findings

(b)(1) For purposes of determining if an area of the marine environment meets the standards set forth in subsection (a), the Secretary shall consider—

Coastal Zone Management Act

SELECTIONS: POLICY AND GRANTS

This Act became law on October 27, 1972 (Public Law 92-583, 16 U.S.C. 1451-1456) and has been amended eight times. This version of the Act follows the organization and structure of the original document while using the updated language from the U.S. Code except that it refers to the law as the “Act” rather than to the “subchapter” or the “title” of the Code. In this law, unless specified to the contrary, “Secretary” refers to the Secretary of Commerce.

16 U.S.C. 1451
Congressional findings

Section 302

The Congress finds that—

- (a) There is a national interest in the effective management, beneficial use, protection, and development of the coastal zone.
- (b) The coastal zone is rich in a variety of natural, commercial, recreational, ecological, industrial, and esthetic resources of immediate and potential value to the present and future well-being of the Nation.
- (c) The increasing and competing demands upon the lands and waters of our coastal zone occasioned by population growth and economic development, including requirements for industry, commerce, residential development, recreation, extraction of mineral resources and fossil fuels, transportation and navigation, waste disposal, and harvesting of fish, shellfish, and other living marine resources, have resulted in the loss of living marine resources, wildlife, nutrient-rich areas, permanent and adverse changes to ecological systems, decreasing open space for public use, and shoreline erosion.
- (d) The habitat areas of the coastal zone, and the fish, shellfish, other living marine resources, and wildlife therein, are ecologically fragile and consequently extremely vulnerable to destruction by man’s alterations.
- (e) Important ecological, cultural, historic, and esthetic values in the coastal zone which are essential to the wellbeing of all citizens are being irretrievably damaged or lost.
- (f) New and expanding demands for food, energy, minerals, defense needs, recreation, waste disposal, transportation, and industrial activities in the Great Lakes, territorial sea,

Coastal Zone Management Act

exclusive economic zone, and Outer Continental Shelf are placing stress on these areas and are creating the need for resolution of serious conflicts among important and competing uses and values in coastal and ocean waters.

(g) Special natural and scenic characteristics are being damaged by ill-planned development that threatens these values.

(h) In light of competing demands and the urgent need to protect and to give high priority to natural systems in the coastal zone, present state and local institutional arrangements for planning and regulating land and water uses in such areas are inadequate.

(i) The key to more effective protection and use of the land and water resources of the coastal zone is to encourage the states to exercise their full authority over the lands and waters in the coastal zone by assisting the states, in cooperation with Federal and local governments and other vitally affected interests, in developing land and water use programs for the coastal zone, including unified policies, criteria, standards, methods, and processes for dealing with land and water use decisions of more than local significance.

(j) The national objective of attaining a greater degree of energy self-sufficiency would be advanced by providing Federal financial assistance to meet state and local needs resulting from new or expanded energy activity in or affecting the coastal zone.

(k) Land uses in the coastal zone, and the uses of adjacent lands which drain into the coastal zone, may significantly affect the quality of coastal waters and habitats, and efforts to control coastal water pollution from land use activities must be improved.

(l) Because global warming may result in a substantial sea level rise with serious adverse effects in the coastal zone, coastal states must anticipate and plan for such an occurrence.

Coastal Zone Management Act

(m) Because of their proximity to and reliance upon the ocean and its resources, the coastal states have substantial and significant interests in the protection, management, and development of the resources of the exclusive economic zone that can only be served by the active participation of coastal states in all Federal programs affecting such resources and, wherever appropriate, by the development of state ocean resource plans as part of their federally approved coastal zone management programs.

16 U.S.C. 1452
Congressional declaration of
policy

Section 303

The Congress finds and declares that it is the national policy—

(1) to preserve, protect, develop, and where possible, to restore or enhance, the resources of the Nation's coastal zone for this and succeeding generations;

(2) to encourage and assist the states to exercise effectively their responsibilities in the coastal zone through the development and implementation of management programs to achieve wise use of the land and water resources of the coastal zone, giving full consideration to ecological, cultural, historic, and esthetic values as well as the needs for compatible economic development, which programs should at least provide for—

(A) the protection of natural resources, including wetlands, floodplains, estuaries, beaches, dunes, barrier islands, coral reefs, and fish and wildlife and their habitat, within the coastal zone,

(B) the management of coastal development to minimize the loss of life and property caused by improper development in flood-prone, storm surge, geological hazard, and erosion-prone areas and in areas likely to be affected by or vulnerable to sea level rise, land subsidence, and saltwater intrusion, and by the destruction of natural protective features such as beaches, dunes, wetlands, and barrier islands,

Coastal Zone Management Act

(C) the management of coastal development to improve, safeguard, and restore the quality of coastal waters, and to protect natural resources and existing uses of those waters,

(D) priority consideration being given to coastal-dependent uses and orderly processes for siting major facilities related to national defense, energy, fisheries development, recreation, ports and transportation, and the location, to the maximum extent practicable, of new commercial and industrial developments in or adjacent to areas where such development already exists,

(E) public access to the coasts for recreation purposes,

(F) assistance in the redevelopment of deteriorating urban waterfronts and ports, and sensitive preservation and restoration of historic, cultural, and esthetic coastal features,

(G) the coordination and simplification of procedures in order to ensure expedited governmental decisionmaking for the management of coastal resources,

(H) continued consultation and coordination with, and the giving of adequate consideration to the views of, affected Federal agencies,

(I) the giving of timely and effective notification of, and opportunities for public and local government participation in, coastal management decisionmaking,

(J) assistance to support comprehensive planning, conservation, and management for living marine resources, including planning for the siting of pollution control and aquaculture facilities within the coastal zone, and improved coordination between State and Federal coastal zone management agencies and State and [sic; Federal?] wildlife agencies, and

(K) the study and development, in any case in which the Secretary [of Commerce] considers it to be appro-

Coastal Zone Management Act

priate, of plans for addressing the adverse effects upon the coastal zone of land subsidence and of sea level rise; and

(3) to encourage the preparation of special area management plans which provide for increased specificity in protecting significant natural resources, reasonable coastal dependent economic growth, improved protection of life and property in hazardous areas, including those areas likely to be affected by land subsidence, sea level rise, or fluctuating water levels of the Great Lakes, and improved predictability in governmental decisionmaking;

(4) to encourage the participation and cooperation of the public, state [sic] and local governments, and interstate and other regional agencies, as well as of the Federal agencies having programs affecting the coastal zone, in carrying out the purposes of this Act;

(5) to encourage coordination and cooperation with and among the appropriate Federal, State, and local agencies, and international organizations where appropriate, in collection, analysis, synthesis, and dissemination of coastal management information, research results, and technical assistance, to support State and Federal regulation of land use practices affecting the coastal and ocean resources of the United States; and

(6) to respond to changing circumstances affecting the coastal environment and coastal resource management by encouraging States to consider such issues as ocean uses potentially affecting the coastal zone.

16 U.S.C. 1453
Definitions

Section 304

For purposes of this Act—

(1) The term “coastal zone” means the coastal waters (including the lands therein and thereunder) and the adjacent shorelands (including the waters therein and thereunder), strongly influenced by each other and in proximity to the shorelines of the several coastal states, and includes islands, transitional and intertidal areas,

Coastal Zone Management Act

salt marshes, wetlands, and beaches. The zone extends, in Great Lakes waters, to the international boundary between the United States and Canada and, in other areas, seaward to the outer limit of State title and ownership under the Submerged Lands Act (43 U.S.C. 1301 et seq.), [the Puerto Rican Federal Relations Act] the Act of March 2, 1917, 48 U.S.C. 749 [48 U.S.C. 731 et seq.], the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as approved by the Act of March 24, 1976 [48 U.S.C. 1801 et seq.], or section 1 of the Act of November 20, 1963 [submerged lands, Guam, Virgin Island, and American Samoa] (48 U.S.C. 1705), as applicable. The zone extends inland from the shorelines only to the extent necessary to control shorelands, the uses of which have a direct and significant impact on the coastal waters, and to control those geographical areas which are likely to be affected by or vulnerable to sea level rise. Excluded from the coastal zone are lands the use of which is by law subject solely to the discretion of or which is held in trust by the Federal Government, its officers or agents.

[Definitions (2) through (15) omitted]

(16) The term “Secretary” means the Secretary of Commerce.

16 U.S.C. 1454
Submittal of State program for approval

Section 305

Section 306

[Subsections 306(a), (b), and (c) omitted]

(d) Before approving a management program submitted by a coastal state, the Secretary shall find the following:

Coastal Zone Management Act

(1) The State has developed and adopted a management program for its coastal zone in accordance with rules and regulations promulgated by the Secretary, after notice, and with the opportunity of full participation by relevant Federal agencies, State agencies, local governments, regional organizations, port authorities, and other interested parties and individuals, public and private, which is adequate to carry out the purposes of this Act and is consistent with the policy declared in section 303 of this Act [16 U.S.C. 1452].

(2) The management program includes each of the following required program elements:

(A) An identification of the boundaries of the coastal zone subject to the management program.

(3) The State has—

(A) coordinated its program with local, areawide, and interstate plans applicable to areas within the coastal zone—

(i) existing on January 1 of the year in which the State's management program is submitted to the Secretary; and

(ii) which have been developed by a local government, an areawide agency, a regional agency, or an interstate agency; and

(B) established an effective mechanism for continuing consultation and coordination between the management agency designated pursuant to paragraph (6) and with local governments, interstate agencies, regional agencies, and areawide agencies within the coastal zone to assure the full participation of those local governments and agencies in carrying out the purposes of this Act; except that the Secretary shall not find any mechanism to be effective for purposes of this subparagraph unless it requires that—

(i) the management agency, before implementing any management program decision which would conflict with any local zoning ordinance, decision, or other action, shall send a notice of the management pro-

Coastal Zone Management Act

gram decision to any local government whose zoning authority is affected;

(ii) within the 30-day period commencing on the date of receipt of that notice, the local government may submit to the management agency written comments on the management program decision, and any recommendation for alternatives; and

(iii) the management agency, if any comments are submitted to it within the 30-day period by any local government—

(I) shall consider the comments;

(II) may, in its discretion, hold a public hearing on the comments; and

In the case of energy facilities, the Secretary shall find that the State has given consideration to any applicable national or interstate energy plan or program.

Coastal Zone Management Act

(9) The management program includes procedures whereby specific areas may be designated for the purpose of preserving or restoring them for their conservation, recreational, ecological, historical, or esthetic values.

(10) The State, acting through its chosen agency or agencies (including local governments, areawide agencies, regional agencies, or interstate agencies) has authority for the management of the coastal zone in accordance with the management program. Such authority shall include power—

(A) to administer land use and water use regulations to control development, to ensure compliance with the management program, and to resolve conflicts among competing uses; and

(B) to acquire fee simple and less than fee simple interests in land, waters, and other property through condemnation or other means when necessary to achieve conformance with the management program.

(11) The management program provides for any one or a combination of the following general techniques for control of land uses and water uses within the coastal zone:

(A) State establishment of criteria and standards for local implementation, subject to administrative review and enforcement.

(B) Direct State land and water use planning and regulation.

(C) State administrative review for consistency with the management program of all development plans, projects, or land and water use regulations, including exceptions and variances thereto, proposed by any State or local authority or private developer, with power to approve or disapprove after public notice and an opportunity for hearings.

- (13) The management program provides for—
 - (A) the inventory and designation of areas that contain one or more coastal resources of national significance; and
 - (B) specific and enforceable standards to protect such resources.
- (14) The management program provides for public participation in permitting processes, consistency determinations, and other similar decisions.
- (15) The management program provides a mechanism to ensure that all State agencies will adhere to the program.
- (16) The management program contains enforceable policies and mechanisms to implement the applicable requirements of the Coastal Nonpoint Pollution Control Program of the State required by section 306(b) of this Act [16 U.S.C. 1455(b)].

16 U.S.C. 1456
Coordination and cooperation
of Federal Agencies

Section 307

- (a) In carrying out his functions and responsibilities under this Act, the Secretary shall consult with, cooperate with, and, to the maximum extent practicable, coordinate his activities with other interested Federal agencies.
- (b) The Secretary shall not approve the management program submitted by a state pursuant to section 306 of this Act [16 U.S.C. 1455] unless the views of Federal agencies principally affected by such program have been adequately considered.

Coastal Zone Management Act

(c)(1)(A) Each Federal agency activity within or outside the coastal zone that affects any land or water use or natural resource of the coastal zone shall be carried out in a manner which is consistent to the maximum extent practicable with the enforceable policies of approved State management programs. A Federal agency activity shall be subject to this paragraph unless it is subject to paragraph (2) or (3).

[Paragraph (c)(1)(B), Court decisions and Presidential exemptions from compliance, omitted]

(C) Each Federal agency carrying out an activity subject to paragraph (1) shall provide a consistency determination to the relevant State agency designated under section 306(d)(6) of this Act [16 U.S.C. 1455(d)(6)] at the earliest practicable time, but in no case later than 90 days before final approval of the Federal activity unless both the Federal agency and the State agency agree to a different schedule.

[Paragraph (c)(2) omitted]

(3)(A) After final approval by the Secretary of a state's management program, any applicant for required Federal license or permit to conduct an activity, in or outside of the coastal zone, affecting any land or water use or natural resource of the coastal zone of that state shall provide in the application to the licensing or permitting agency a certification that the proposed activity complies with the enforceable policies of the state's approved program and that such activity will be conducted in a manner consistent with the program. At the same time, the applicant shall furnish to the state or its designated agency a copy of the certification, with all necessary information and data. Each coastal state shall establish procedures for public notice in the case of all such certifications and, to the extent it deems appropriate, procedures for public hearings in connection therewith. At the earliest practicable time, the state or its designated agency shall notify the Federal agency concerned that the state concurs with or objects to the applicant's certification. If the state or its designated agency fails to furnish the required notifi-

cation within six months after receipt of its copy of the applicant's certification, the state's concurrence with the certification shall be conclusively presumed. No license or permit shall be granted by the Federal agency until the state or its designated agency has concurred with the applicant's certification or until, by the state's failure to act, the concurrence is conclusively presumed, unless the Secretary, on his own initiative or upon appeal by the applicant, finds after providing a reasonable opportunity for detailed comments from the Federal agency involved and from the state, that the activity is consistent with the objectives of this Act or is otherwise necessary in the interest of national security.

[Remainder of subsection (c) omitted]

(d) State and local governments submitting applications for Federal assistance under other Federal programs, in or outside of the coastal zone, affecting any land or water use of [sic; probably should be "or"] natural resource of the coastal zone shall indicate the views of the appropriate state or local agency as to the relationship of such activities to the approved management program for the coastal zone. Such applications shall be submitted and coordinated in accordance with the provisions of Title IV of the Intergovernmental Cooperation Act of 1968 as amended [31 U.S.C. 6506]. Federal agencies shall not approve proposed projects that are inconsistent with the enforceable policies of a coastal state's management program, except upon a finding by the Secretary that such project is consistent with the purposes of this Act or necessary in the interest of national security.

(e) Nothing in this Act shall be construed—

(1) to diminish either Federal or state jurisdiction, responsibility, or rights in the field of planning, development, or control of water resources, submerged lands, or navigable waters; nor to displace, supersede, limit, or modify any interstate compact or the jurisdiction or responsibility of any legally established joint or common agency of two or more states or of two or more states and the Federal

Coastal Zone Management Act

Government; nor to limit the authority of Congress to authorize and fund projects;

(2) as superseding, modifying, or repealing existing laws applicable to the various Federal agencies; nor to affect the jurisdiction, powers, or prerogatives of the International Joint Commission, United States and Canada, the Permanent Engineering Board, and the United States operating entity or entities established pursuant to the Columbia River Basin Treaty, signed at Washington, January 17, 1961, or the International Boundary and Water Commission, United States and Mexico.

[Subsection (f) omitted]

(g) When any state's coastal zone management program, submitted for approval or proposed for modification pursuant to section 306 of this Act [16 U.S.C. 1455], includes requirements as to shorelands which also would be subject to any Federally supported national land use program which may be hereafter enacted, the Secretary, prior to approving such program, shall obtain the concurrence of the Secretary of the Interior, or such other Federal official as may be designated to administer the national land use program, with respect to that portion of the coastal zone management program affecting such inland areas.

(b)(1) Subject to the limitations and goals established in this section, the Secretary may make grants to coastal states to provide funding for development and submission for Federal approval of program changes that support attainment of one or more coastal zone enhancement objectives.

(2)(A) In addition to any amounts provided under section 306 of this Act [16 U.S.C. 1455], and subject to the

Twelve months after August 11, 1978, the President shall report back to Congress the results of his evaluation, including any changes which were made in administrative policies and procedures, and any recommendations he may have for legislative action.

* One of the changes in administrative policy and procedure was executive order 13007, Indian Sacred Sites.

Legislative Notes

[The Executive Order below is a major administrative directive to implement the American Indian Religious Freedom Act].

By the authority vested in me as President by the Constitution and the laws of the United States, in furtherance of Federal treaties, and in order to protect and preserve Indian religious practices, it is hereby ordered:

SECTION 1. *Accommodation [sic] of Sacred Sites.* (a) In managing Federal lands, each executive branch agency with stat-

American Indian Religious Freedom Act

utory or administrative responsibility for the management of Federal lands shall, to the extent practicable, permitted by law, and not clearly inconsistent with essential agency functions, (1) accomodate [sic] access to and ceremonial use of Indian sacred sites by Indian religious practitioners and (2) avoid adversely affecting the physical integrity of such sacred sites. Where appropriate, agencies shall maintain the confidentiality of sacred sites.

(b) For purposes of this order:

(i) “Federal lands” means any land or interests in land owned by the United States, including leasehold interests held by the United States, except Indian trust lands;

(ii) “Indian tribe” means an Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian tribe pursuant to Public Law No. 103-454, 108 Stat. 4791, and “Indian” refers to a member of such an Indian tribe; and

(iii) “Sacred site” means any specific, discrete, narrowly delineated location on Federal land that is identified by an Indian tribe, or Indian individual determined to be an appropriately authoritative representative of an Indian religion, as sacred by virtue of its established religious significance to, or ceremonial use by, an Indian religion; provided that the tribe or appropriately authoritative representative of an Indian religion has informed the agency of the existence of such a site.

SEC. 2. *Procedures.* (a) Each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall, as appropriate, promptly implement procedures for the purposes of carrying out the provisions of section 1 of this order, including, where practicable and appropriate, procedures to ensure reasonable notice is provided of proposed actions or land management policies that may restrict future access to or ceremonial use of, or adversely affect the physical integrity of, sacred sites. In all actions pursuant to this section, agencies shall comply with the Executive memorandum of April 29, 1994, “Gov-

American Indian Religious Freedom Act

ernment-to-Government Relations with Native American Tribal Governments.”

(b) Within 1 year of the effective date of this order, the head of each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall report to the President, through the Assistant to the President for Domestic Policy, on the implementation of this order. Such reports shall address, among other things, (i) any changes necessary to accomodate [sic] access to and ceremonial use of Indian sacred sites; (ii) any changes necessary to avoid adversely affecting the physical integrity of Indian sacred sites; and (iii) procedures implemented or proposed to facilitate consultation with appropriate Indian tribes and religious leaders and the expeditious resolution of disputes relating to agency action on Federal lands that may adversely affect access to, ceremonial use of, or the physical integrity of sacred sites.

SEC. 3. Nothing in this order shall be construed to require a taking of vested property interests. Nor shall this order be construed to impair enforceable rights to use of Federal lands that have been granted to third parties through final agency action. For purposes of this order, “agency action” has the same meaning as in the Administrative Procedures Act (5 U.S.C.551(13)).

SEC. 4. This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it, create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by any party against the United States, its agencies officers, or any person.

This Act became law on October 31, 1979 (Public Law 96-95; 16 U.S.C. 470aa-mm), and has been amended four times. This version of the Act follows the organization and structure of the original document while using the updated language from the U.S. Code.

16 U.S.C. 470aa
Findings and purpose

Section 2

(a) The Congress finds that—

- (1) archaeological resources on public lands and Indian lands are an accessible and irreplaceable part of the Nation's heritage;
- (2) these resources are increasingly endangered because of their commercial attractiveness;
- (3) existing Federal laws do not provide adequate protection to prevent the loss and destruction of these archaeological resources and sites resulting from uncontrolled excavations and pillage; and
- (4) there is a wealth of archaeological information which has been legally obtained by private individuals for non-commercial purposes and which could voluntarily be made available to professional archaeologists and institutions.

(b) The purpose of this chapter [of Title 16] [Act] is to secure, for the present and future benefit of the American people, the protection of archaeological resources and sites which are on public lands and Indian lands, and to foster increased cooperation and exchange of information between governmental authorities, the professional archaeological community, and private individuals having collections of archaeological resources and data which were obtained before October 31, 1979 [the date of the enactment of this Act].

Correct timing for claiming
credit, in general

(b)(1) Qualified rehabilitation expenditures with respect to any qualified rehabilitated building shall be taken into account for the taxable year in which such qualified rehabilitated building is placed in service.

(2) The amount which would (but for this paragraph) be taken into account under paragraph (1) with respect to any qualified rehabilitated building shall be reduced (but not below zero) by any amount of qualified rehabilitation expenditures taken into account under subsection (d) by the taxpayer or a predecessor of the taxpayer (or, in the case of a sale and leaseback described in section 50(a)(2)(C), by the lessee), to the extent any amount so taken into account has not been required to be recaptured under section 50(a).

26 U.S.C. 47(c)
Definitions

(c) For the purposes of this section—

(1)(A) The term “qualified rehabilitated building” means any building (and its structural components) if—

- (i) such building has been substantially rehabilitated,
- (ii) such building was placed in service before the beginning of the rehabilitation,
- (iii) such building is a certified historic structure, and
- (iv) depreciation (or amortization in lieu of depreciation) is allowable with respect to such building.

(B) (i) For purposes of subparagraph (A)(i), a building shall be treated as having been substantially rehabilitated only if the qualified rehabilitation expenditures during the 24-month period selected by the taxpayer (at the time and in the manner prescribed by regulation) and ending with or within the taxable year exceed the greater of—

Internal Revenue Code

(I) the adjusted basis of such building (and its structural components), or

(II) \$5,000.

The adjusted basis of the building (and its structural components) shall be determined as of the beginning of the 1st day of such 24-month period, or of the holding period of the building, whichever is later. For purposes of the preceding sentence, the determination of the beginning of the holding period shall be made without regard to any reconstruction by the taxpayer in connection with the rehabilitation.

(ii) In the case of any rehabilitation which may reasonably be expected to be completed in phases set forth in architectural plans and specifications completed before the rehabilitation begins, clause (i) shall be applied by substituting “60-month period” for “24-month period.”

(iii) The Secretary [of Treasury] shall prescribe by regulation rules for applying this subparagraph to lessees.

(C) Rehabilitation includes reconstruction.

(2)(A) The term “qualified rehabilitation expenditure” means any amount properly chargeable to capital account—

(i) for property for which depreciation is allowable under section 168 and which is—

(I) nonresidential real property,

(II) residential rental property,

(III) real property which has a class life of more than 12.5 years, or

(IV) an addition or improvement to property described in subclause (I), (II), or (III), and

Internal Revenue Code

(ii) in connection with the rehabilitation of a qualified rehabilitated building.

(B) The term “qualified rehabilitation expenditure” does not include—

(i) Any expenditure with respect to which the taxpayer does not use the straight line method over a recovery period determined under subsection (c) or (g) of section 168. The preceding sentence shall not apply to any expenditure to the extent the alternative depreciation system of section 168(g) applies to such expenditure by reason of subparagraph (B) or (C) of section 168(g)(1).

(ii) The cost of acquiring any building or interest therein.

(iii) Any expenditure attributable to the enlargement of an existing building.

(iv) Any expenditure attributable to the rehabilitation of a qualified rehabilitated building unless the rehabilitation is a certified rehabilitation (within the meaning of subparagraph (C)).

(v)(I) Any expenditure in connection with the rehabilitation of a building which is allocable to the portion of such property which is (or may reasonably be expected to be) tax-exempt use property (within the meaning of section 168(h), except that “50 percent” shall be substituted for “35 percent” in paragraph (1)(B)(iii) thereof).

(II) This clause shall not apply for purposes of determining under paragraph (1)(C) whether a building has been substantially rehabilitated.

(vi) Any expenditure of a lessee of a building if, on the date the rehabilitation is completed, the remaining term of the lease (determined without regard to any renewal periods) is less than the recovery period determined under section 168(c).

Internal Revenue Code

(C) For purposes of subparagraph (B), the term “certified rehabilitation” means any rehabilitation of a certified historic structure which the Secretary of the Interior has certified to the Secretary [of the Treasury] as being consistent with the historic character of such property or the district in which such property is located.

(D) For purposes of subparagraph (A), the terms “non-residential real property,” “residential rental property,” and “class life” have the respective meanings given such terms by section 168.

(3)(A) The term “certified historic structure” means any building (and its structural components) which—

(i) is listed in the National Register, or

(ii) is located in a registered historic district and is certified by the Secretary of the Interior to the Secretary as being of historic significance to the district.

(B) The term “registered historic district” means—

(i) any district listed in the National Register, and

(ii) any district—

(I) which is designated under a statute of the appropriate State or local government, if such statute is certified by the Secretary of the Interior to the Secretary as containing criteria which will substantially achieve the purpose of preserving and rehabilitating buildings of historic significance to the district, and

(II) which is certified by the Secretary of the Interior to the Secretary as meeting substantially all of the requirements for the listing of districts in the National Register.

26 U.S.C. 47(d)
Progress expenditures

(d)(1) In the case of any building to which this subsection applies, except as provided in paragraph (3)—

Internal Revenue Code

(A) if such building is self-rehabilitated property, any qualified rehabilitation expenditure with respect to such building shall be taken into account for the taxable year for which such expenditure is properly chargeable to capital account with respect to such building, and

(B) if such building is not self-rehabilitated property, any qualified rehabilitation expenditure with respect to such building shall be taken into account for the taxable year in which paid.

(2)(A) This subsection shall apply to any building which is being rehabilitated by or for the taxpayer if—

(i) the normal rehabilitation period for such building is 2 years or more, and

(ii) it is reasonable to expect that such building will be a qualified rehabilitated building in the hands of the taxpayer when it is placed in service.

Clauses (i) and (ii) shall be applied on the basis of facts known as of the close of the taxable year of the taxpayer in which the rehabilitation begins (or, if later, at the close of the first taxable year to which an election under this subsection applies).

(B) For purposes of subparagraph (A), the term “normal rehabilitation period” means the period reasonably expected to be required for the rehabilitation of the building—

(i) beginning with the date on which physical work on the rehabilitation begins (or, if later, the first day of the first taxable year to which an election under this subsection applies), and

(ii) ending on the date on which it is expected that the property will be available for placing in service.

(3) For purposes of paragraph (1)—

Internal Revenue Code

(A) Property which is to be a component part of, or is otherwise to be included in, any building to which this subsection applies shall be taken into account—

(i) at a time not earlier than the time at which it becomes irrevocably devoted to use in the building, and

(ii) as if (at the time referred to in clause (i)) the taxpayer had expended an amount equal to that portion of the cost to the taxpayer of such component or other property which, for purposes of this subpart, is properly chargeable (during such taxable year) to capital account with respect to such building.

(B) Any amount borrowed directly or indirectly by the taxpayer from the person rehabilitating the property for him shall not be treated as an amount expended for such rehabilitation.

(C)(i) In the case of a building which is not self-rehabilitated, the amount taken into account under paragraph (1)(B) for any taxable year shall not exceed the amount which represents the portion of the overall cost to the taxpayer of the rehabilitation which is properly attributable to the portion of the rehabilitation which is completed during such taxable year.

(ii) In the case of a building which is not a self-rehabilitated building, if for the taxable year—

(I) the amount which (but for clause (i)) would have been taken into account under paragraph (1)(B) exceeds the limitation of clause (i), then the amount of such excess shall be taken into account under paragraph (1)(B) for the succeeding taxable year, or

(II) the limitation of clause (i) exceeds the amount taken into account under paragraph (1)(B), then the amount of such excess shall increase the limitation of clause (i) for the succeeding taxable year.

Internal Revenue Code

(D) The determination under subparagraph (C) (i) of the portion of the overall cost to the taxpayer of the rehabilitation which is properly attributable to rehabilitation completed during any taxable year shall be made, under regulations prescribed by the Secretary, on the basis of engineering or architectural estimates or on the basis of cost accounting records. Unless the taxpayer establishes otherwise by clear and convincing evidence, the rehabilitation shall be deemed to be completed not more rapidly than ratably over the normal rehabilitation period.

(E) No qualified rehabilitation expenditures shall be taken into account under this subsection for any period before the first day of the first taxable year to which an election under this subsection applies.

(F) In the case of any building, no qualified rehabilitation expenditures shall be taken into account under this subsection for the earlier of—

(i) the taxable year in which the building is placed in service, or

(ii) the first taxable year for which recapture is required under section 50(a)(2) with respect to such property, or for any taxable year thereafter.

(4) For purposes of this subsection, the term “self-rehabilitated building” means any building if it is reasonable to believe that more than half of the qualified rehabilitation expenditures for such building will be made directly by the taxpayer.

(5) This subsection shall apply to any taxpayer only if such taxpayer has made an election under this paragraph. Such an election shall apply to the taxable year for which made and all subsequent taxable years. Such an election, once made, may be revoked only with the consent of the Secretary.

Native American Graves Protection and Repatriation Act

This Act became law on November 16, 1990 (Public Law 101-601; 25 U.S.C. 3001 et seq.) and has been amended twice. This version of the Act follows the organization and structure of the original document while using the updated language from the U.S. Code. In this law, unless specified to the contrary, “Secretary” refers to the Secretary of the Interior.

28 U.S.C. 3001 Definitions

Section 2

For purposes of this chapter [of Title 25] [Act], the term—

(1) “burial site” means any natural or prepared physical location, whether originally below, on, or above the surface of the earth, into which as a part of the death rite or ceremony of a culture, individual human remains are deposited.

(2) “cultural affiliation” means that there is a relationship of shared group identity which can be reasonably traced historically or prehistorically between a present day Indian tribe or Native Hawaiian organization and an identifiable earlier group.

(3) “cultural items” means human remains and—

(A) “associated funerary objects” which shall mean objects that, as a part of the death rite or ceremony of a culture, are reasonably believed to have been placed with individual human remains either at the time of death or later, and both the human remains and associated funerary objects are presently in the possession or control of a Federal agency or museum, except that other items exclusively made for burial purposes or to contain human remains shall be considered as associated funerary objects.

(B) “unassociated funerary objects” which shall mean objects that, as a part of the death rite or ceremony of a culture, are reasonably believed to have been placed with individual human remains either at the time of death or later, where the remains are not in the possession or control of the Federal agency or museum and the objects can be identified by a preponderance of the evidence as related to specific individuals or families or to known human remains or, by a preponderance of

Native American Graves Protection and Repatriation Act

the evidence, as having been removed from a specific burial site of an individual culturally affiliated with a particular Indian tribe,

(C) “sacred objects” which shall mean specific ceremonial objects which are needed by traditional Native American religious leaders for the practice of traditional Native American religions by their present day adherents, and

(D) “cultural patrimony” which shall mean an object having ongoing historical, traditional, or cultural importance central to the Native American group or culture itself, rather than property owned by an individual Native American, and which, therefore, cannot be alienated, appropriated, or conveyed by any individual regardless of whether or not the individual is a member of the Indian tribe or Native Hawaiian organization and such object shall have been considered inalienable by such Native American group at the time the object was separated from such group.

(4) “Federal agency” means any department, agency, or instrumentality of the United States. Such term does not include the Smithsonian Institution.

(5) “Federal lands” means any land other than tribal lands which are controlled or owned by the United States, including lands selected by but not yet conveyed to Alaska Native Corporations and groups organized pursuant to the Alaska Native Claims Settlement Act of 1971 [43 U.S.C. 1601 et seq.].

(6) “Hui Malama I Na Kupuna O Hawai’i Nei” means the nonprofit, Native Hawaiian organization incorporated under the laws of the State of Hawaii by that name on April 17, 1989, for the purpose of providing guidance and expertise in decisions dealing with Native Hawaiian cultural issues, particularly burial issues.

(7) “Indian tribe” means any tribe, band, nation, or other organized group or community of Indians, including any Alaska Native village (as defined in, or established pursu-

Native American Graves Protection and Repatriation Act

ant to, section 1601 et. seq. of title 43 [the Alaska Native Claims Settlement Act], which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(8) “museum” means any institution or State or local government agency (including any institution of higher learning) that receives Federal funds and has possession of, or control over, Native American cultural items. Such term does not include the Smithsonian Institution or any other Federal agency.

(12) “Office of Hawaiian Affairs” means the Office of Hawaiian Affairs established by the constitution of the State of Hawaii.

(13) “right of possession” means possession obtained with the voluntary consent of an individual or group that had authority of alienation. The original acquisition of a Native American unassociated funerary object, sacred object or object of cultural patrimony from an Indian tribe or Native Hawaiian organization with the voluntary consent of an individual or group with authority to alienate such

Native American Graves Protection and Repatriation Act

object is deemed to give right of possession of that object, unless the phrase so defined would, as applied in section 3005(c) [of Title 25] [section 7(c) of this Act], result in a Fifth Amendment taking by the United States as determined by the United States Court of Federal Claims pursuant to 28 U.S.C. 1491 in which event the “right of possession” shall be as provided under otherwise applicable property law. The original acquisition of Native American human remains and associated funerary objects which were excavated, exhumed, or otherwise obtained with full knowledge and consent of the next of kin or the official governing body of the appropriate culturally affiliated Indian tribe or Native Hawaiian organization is deemed to give right of possession to those remains.

(15) “tribal land” means—

(A) all lands within the exterior boundaries of any Indian reservation;

(B) all dependent Indian communities;

(C) any lands administered for the benefit of Native Hawaiians pursuant to the Hawaiian Homes Commission Act, 1920 [42 Stat. 108], and section 4 of Public Law 86-3 [note preceding 48 U.S.C. 491].

25 U.S.C. 3002

cultural items

Section 3

(a) The ownership or control of Native American cultural items which are excavated or discovered on Federal or tribal lands after November 16, 1990, shall be (with priority given in the order listed)—

(1) in the case of Native American human remains and associated funerary objects, in the lineal descendants of the Native American; or

(2) in any case in which such lineal descendants cannot be ascertained, and in the case of unassociated funerary objects, sacred objects, and objects of cultural patrimony—

Native American Graves Protection and Repatriation Act

(A) in the Indian tribe or Native Hawaiian organization on whose tribal land such objects or remains were discovered;

(B) in the Indian tribe or Native Hawaiian organization which has the closest cultural affiliation with such remains or objects and which, upon notice, states a claim for such remains or objects; or

(C) if the cultural affiliation of the objects cannot be reasonably ascertained and if the objects were discovered on Federal land that is recognized by a final judgment of the Indian Claims Commission or the United States Court of Claims as the aboriginal land of some Indian tribe—

(1) [sic] in the Indian tribe that is recognized as aboriginally occupying the area in which the objects were discovered, if upon notice, such tribe states a claim for such remains or objects, or

(2) [sic] if it can be shown by a preponderance of the evidence that a different tribe has a stronger cultural relationship with the remains or objects than the tribe or organization specified in paragraph (1), in the Indian tribe that has the strongest demonstrated relationship, if upon notice, such tribe states a claim for such remains or objects.

(b) Native American cultural items not claimed under subsection (a) shall be disposed of in accordance with regulations promulgated by the Secretary in consultation with the review committee established under section 3006 [of Title 25] [section 8 of this Act], Native American groups, representatives of museums and the scientific community.

(c) The intentional removal from or excavation of Native American cultural items from Federal or tribal lands for purposes of discovery, study, or removal of such items is permitted only if—

(1) such items are excavated or removed pursuant to a permit issued under section 470cc [of Title 16] [section 4

Native American Graves Protection and Repatriation Act

of the Archaeological Resources Protection Act of 1979, as amended] which shall be consistent with this chapter [Act];

(2) such items are excavated or removed after consultation with or, in the case of tribal lands, consent of the appropriate (if any) Indian tribe or Native Hawaiian organization;

(3) the ownership and right of control of the disposition of such items shall be as provided in subsections (a) and (b); and

(4) proof of consultation or consent under paragraph (2) is shown.

(d)(1) Any person who knows, or has reason to know, that such person has discovered Native American cultural items on Federal or tribal lands after November 16, 1990, shall notify, in writing, the Secretary of the Department, or head of any other agency or instrumentality of the United States, having primary management authority with respect to Federal lands and the appropriate Indian tribe or Native Hawaiian organization with respect to tribal lands, if known or readily ascertainable, and, in the case of lands that have been selected by an Alaska Native Corporation or group organized pursuant to section 1601 et. seq. [of Title 43] [the Alaska Native Claims Settlement Act of 1971], the appropriate corporation or group. If the discovery occurred in connection with an activity, including (but not limited to) construction, mining, logging, and agriculture, the person shall cease the activity in the area of the discovery, make a reasonable effort to protect the items discovered before resuming such activity, and provide notice under this subsection. Following the notification under this subsection, and upon certification by the Secretary of the department or the head of any agency or instrumentality of the United States or the appropriate Indian tribe or Native Hawaiian organization that notification has been received, the activity may resume after 30 days of such certification.

Native American Graves Protection and Repatriation Act

(2) The disposition of and control over any cultural items excavated or removed under this subsection shall be determined as provided for in this section.

(3) If the Secretary of the Interior consents, the responsibilities (in whole or in part) under paragraphs (1) and (2) of the Secretary of any department (other than the Department of the Interior) or the head of any other agency or instrumentality may be delegated to the Secretary with respect to any land managed by such other Secretary or agency head.

(e) Nothing in this section shall prevent the governing body of an Indian tribe or Native Hawaiian organization from expressly relinquishing control over any Native American human remains, or title to or control over any funerary object, or sacred object.

18 U.S.C. 1170
Illegal trafficking in Native
American human remains and
cultural items

Section 4

(a) Whoever knowingly sells, purchases, uses for profit, or transports for sale or profit, the human remains of a Native American without the right of possession to those remains as provided in the Native American Graves Protection and Repatriation Act shall be fined in accordance with this title, or imprisoned not more than 12 months, or both, and in the case of a second or subsequent violation, be fined in accordance with this title [Title 18], or imprisoned not more than 5 years, or both.

(b) Whoever knowingly sells, purchases, uses for profit, or transports for sale or profit any Native American cultural items obtained in violation of the Native American Graves Protection and Repatriation Act shall be fined in accordance with this title, imprisoned not more than one year, or both, and in the case of a second or subsequent violation, be fined in accordance with this title, imprisoned not more than 5 years, or both.

25 U.S.C. 3003
Federal agency inventory for
human remains and associated
funary objects

Section 5

(a) Each Federal agency and each museum which has possession or control over holdings or collections of Native American human remains and associated funerary objects

Native American Graves Protection and Repatriation Act

shall compile an inventory of such items and, to the extent possible based on information possessed by such museum or Federal agency, identify the geographical and cultural affiliation of such item.

(b)(1) The inventories and identifications required under subsection (a) shall be—

(A) completed in consultation with tribal government and Native Hawaiian organization officials and traditional religious leaders;

(B) completed by not later than the date that is 5 years after November 16, 1990, [the date of enactment of this Act], and

(C) made available both during the time they are being conducted and afterward to a review committee established under section 3006 [of Title 25] [section 8 of this Act].

(2) Upon request by an Indian tribe or Native Hawaiian organization which receives or should have received notice, a museum or Federal agency shall supply additional available documentation to supplement the information required by subsection (a) of this section. The term “documentation” means a summary of existing museum or Federal agency records, including inventories or catalogues, relevant studies, or other pertinent data for the limited purpose of determining the geographical origin, cultural affiliation, and basic facts surrounding acquisition and accession of Native American human remains and associated funerary objects subject to this section. Such term does not mean, and this chapter [Act] shall not be construed to be an authorization for, the initiation of new scientific studies of such remains and associated funerary objects or other means of acquiring or preserving additional scientific information from such remains and objects.

(c) Any museum which has made a good faith effort to carry out an inventory and identification under this section, but which has been unable to complete the process, may appeal

Native American Graves Protection and Repatriation Act

to the Secretary for an extension of the time requirements set forth in subsection (b)(1)(B). The Secretary may extend such time requirements for any such museum upon a finding of good faith effort. An indication of good faith shall include the development of a plan to carry out the inventory and identification process.

(d)(1) If the cultural affiliation of any particular Native American human remains or associated funerary objects is determined pursuant to this section, the Federal agency or museum concerned shall, not later than 6 months after the completion of the inventory, notify the affected Indian tribes or Native Hawaiian organizations.

(2) The notice required by paragraph (1) shall include information—

(A) which identifies each Native American human remains or associated funerary objects and the circumstances surrounding its acquisition;

(B) which lists the human remains or associated funerary objects that are clearly identifiable as to tribal origin; and

(C) which lists the Native American human remains and associated funerary objects that are not clearly identifiable as being culturally affiliated with that Indian tribe or Native Hawaiian organization, but which, given the totality of circumstances surrounding acquisition of the remains or objects, are determined by a reasonable belief to be remains or objects culturally affiliated with the Indian tribe or Native Hawaiian organization.

(3) A copy of each notice provided under paragraph (1) shall be sent to the Secretary who shall publish each notice in the Federal Register.

(e) For the purposes of this section, the term “inventory” means a simple itemized list that summarizes the information called for by this section.

Native American Graves Protection and Repatriation Act

25 U.S.C. 3004

Summary for unassociated funerary objects, sacred objects, and cultural patrimony

Section 6

(a) Each Federal agency or museum which has possession or control over holdings or collections of Native American unassociated funerary objects, sacred objects, or objects of cultural patrimony shall provide a written summary of such objects based upon available information held by such agency or museum. The summary shall describe the scope of the collection, kinds of objects included, reference to geographical location, means and period of acquisition and cultural affiliation, where readily ascertainable.

(b)(1) The summary required under subsection (a) shall be—

(A) in lieu of an object-by-object inventory;

(B) followed by consultation with tribal government and Native Hawaiian organization officials and traditional religious leaders; and

(C) completed by not later than the date that is 3 years after November 16, 1990, [the date of enactment of this Act].

(2) Upon request, Indian Tribes and Native Hawaiian organizations shall have access to records, catalogues, relevant studies or other pertinent data for the limited purposes of determining the geographic origin, cultural affiliation, and basic facts surrounding acquisition and accession of Native American objects subject to this section. Such information shall be provided in a reasonable manner to be agreed upon by all parties.

25 U.S.C. 3005

Repatriation of Native American human remains and objects possessed or controlled by Federal agencies and museums

Section 7

(a)(1) If, pursuant to section 3003 [of Title 25] [section 5 of this Act], the cultural affiliation of Native American human remains and associated funerary objects with a particular Indian tribe or Native Hawaiian organization is established, then the Federal agency or museum, upon the request of a known lineal descendant of the Native American or of the tribe or organization and pursuant to subsections (b) and

Native American Graves Protection and Repatriation Act

(e) of this section, shall expeditiously return such remains and associated funerary objects.

(2) If, pursuant to section 3004 [of Title 25] [section 6 of this Act], the cultural affiliation with a particular Indian tribe or Native Hawaiian organization is shown with respect to unassociated funerary objects, sacred objects or objects of cultural patrimony, then the Federal agency or museum, upon the request of the Indian tribe or Native Hawaiian organization and pursuant to subsections (b), (c) and (e), shall expeditiously return such objects.

(3) The return of cultural items covered by this chapter [Act] shall be in consultation with the requesting lineal descendant or tribe or organization to determine the place and manner of delivery of such items.

(4) Where cultural affiliation of Native American human remains and funerary objects has not been established in an inventory prepared pursuant to section 3003 [of Title 25] [section 5 of this Act], or the summary pursuant to section 3004 [of title 25] [section 6 of this Act], or where Native American human remains and funerary objects are not included upon any such inventory, then, upon request and pursuant to subsections (b) and (e) and, in the case of unassociated funerary objects, subsection (c), such Native American human remains and funerary objects shall be expeditiously returned where the requesting Indian tribe or Native Hawaiian organization can show cultural affiliation by a preponderance of the evidence based upon geographical, kinship, biological, archaeological, anthropological, linguistic, folkloric, oral traditional, historical, or other relevant information or expert opinion.

(5) Upon request and pursuant to subsections (b), (c) and (e), sacred objects and objects of cultural patrimony shall be expeditiously returned where—

(A) the requesting party is the direct lineal descendant of an individual who owned the sacred object;

Native American Graves Protection and Repatriation Act

(B) the requesting Indian tribe or Native Hawaiian organization can show that the object was owned or controlled by the tribe or organization; or

(C) the requesting Indian tribe or Native Hawaiian organization can show that the sacred object was owned or controlled by a member thereof, provided that in the case where a sacred object was owned by a member thereof, there are no identifiable lineal descendants of said member or the lineal descendants, upon notice, have failed to make a claim for the object under this chapter [Act].

(b) If the lineal descendant, Indian tribe, or Native Hawaiian organization requests the return of culturally affiliated Native American cultural items, the Federal agency or museum shall expeditiously return such items unless such items are indispensable for completion of a specific scientific study, the outcome of which would be of major benefit to the United States. Such items shall be returned by no later than 90 days after the date on which the scientific study is completed.

(c) If a known lineal descendant or an Indian tribe or Native Hawaiian organization requests the return of Native American unassociated funerary objects, sacred objects or objects of cultural patrimony pursuant to this chapter [Act] and presents evidence which, if standing alone before the introduction of evidence to the contrary, would support a finding that the Federal agency or museum did not have the right of possession, then such agency or museum shall return such objects unless it can overcome such inference and prove that it has a right of possession to the objects.

(d) Any Federal agency or museum shall share what information it does possess regarding the object in question with the known lineal descendant, Indian tribe, or Native Hawaiian organization to assist in making a claim under this section.

(e) Where there are multiple requests for repatriation of any cultural item and, after complying with the requirements of

Native American Graves Protection and Repatriation Act

this chapter [Act], the Federal agency or museum cannot clearly determine which requesting party is the most appropriate claimant, the agency or museum may retain such item until the requesting parties agree upon its disposition or the dispute is otherwise resolved pursuant to the provisions of this chapter [Act] or by a court of competent jurisdiction.

(f) Any museum which repatriates any item in good faith pursuant to this chapter [Act] shall not be liable for claims by an aggrieved party or for claims of breach of fiduciary duty, public trust, or violations of state law that are inconsistent with the provisions of this chapter [Act].

25 U.S.C. 3006

(2) The Secretary may not appoint Federal officers or employees to the committee.

(3) In the event vacancies shall occur, such vacancies shall be filled by the Secretary in the same manner as the

Native American Graves Protection and Repatriation Act

original appointment within 90 days of the occurrence of such vacancy.

(4) Members of the committee established under subsection (a) shall serve without pay, but shall be reimbursed at a rate equal to the daily rate for GS-18 of the General Schedule for each day (including travel time) for which the member is actually engaged in committee business. Each member shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5.

(c) The committee established under subsection a) of this section shall be responsible for—

(1) designating one of the members of the committee as chairman;

National Underground Railroad Network to Freedom

The National Underground Railroad Network to Freedom Act (Pub. L. 105-203 section 5, 54 U.S.C. 3083 et. seq.) was passed in 1990 and has been amended once. In 2014, Congress reorganized all laws regarding the National Park Service, including this Act, by moving them to Title 54 of the U.S. Code. For more information about this change and how it affects this document, please see the Editors' Note on Title 54 in the front of this book. In this law, unless specified to the contrary, "Secretary" refers to the Secretary of the Interior.

Definition

[Added 2014] Definition

In this chapter [Act], the term "national network" means the National Underground Railroad Network to Freedom established under section 308302 [of Title 54].

Section 1

This Act may be cited as the "National Underground Railroad Network to Freedom Act of 1998".

Section 2

[Not repealed but omitted from Title 54]

(a) FINDINGS.— The Congress finds the following:

(1) The Underground Railroad, which flourished from the end of the 18th century to the end of the Civil War, was one of the most significant expressions of the American civil rights movement during its evolution over more than three centuries.

(2) The Underground Railroad bridged the divides of race, religion, sectional differences, and nationality; spanned State lines and international borders; and joined the American ideals of liberty and freedom expressed in the Declaration of Independence and the Constitution to the extraordinary actions of ordinary men and women working in common purpose to free a people.

(3) Pursuant to [section 100507 of title 54], the Underground Railroad Advisory Committee conducted a study of the appropriate means of establishing an enduring national commemorative Underground Railroad program of education, example, reflection, and reconciliation.

National Underground Railroad Network to Freedom

(4) The Underground Railroad Advisory Committee found that—

(A) although a few elements of the Underground Railroad story are represented in existing National Park Service units and other sites, many sites are in imminent danger of being lost or destroyed, and many important resource types are not adequately represented and protected;

(B) there are many important sites which have high potential for preservation and visitor use in 29 States, the District of Columbia, and the Virgin Islands;

(C) no single site or route completely reflects and characterizes the Underground Railroad, since its story and associated resources involve networks and regions of the country rather than individual sites and trails; and

(D) establishment of a variety of partnerships between the Federal Government and other levels of government and the private sector would be most appropriate for the protection and interpretation of the Underground Railroad.

(5) The National Park Service can play a vital role in facilitating the national commemoration of the Underground Railroad.

(6) The story and significance of the Underground Railroad can best engage the American people through a national program of the National Park Service that links historic buildings, structures, and sites; routes, geographic areas, and corridors; interpretive centers, museums, and institutions; and programs, activities, community projects, exhibits, and multimedia materials, in a manner that is both unified and flexible.

54 U.S.C. 308301 note
Purposes

(b) PURPOSES.— The purposes of this Act are the following:

(1) To recognize the importance of the Underground Railroad, the sacrifices made by those who used the Under-

National Underground Railroad Network to Freedom

ground Railroad in search of freedom from tyranny and oppression, and the sacrifices made by the people who helped them.

(2) To authorize the National Park Service to coordinate and facilitate Federal and non-Federal activities to commemorate, honor, and interpret the history of the Underground Railroad, its significance as a crucial element in the evolution of the national civil rights movement, and its relevance in fostering the spirit of racial harmony and national reconciliation.

(1) to the heads of other Federal agencies, States, localities, regional governmental bodies, and private entities; and

- (6) The current governmental and nongovernmental historic preservation programs and activities are inadequate to ensure future generations a genuine opportunity to appreciate and enjoy the rich maritime heritage of our Nation.
- (7) A coordinated national program is needed immediately to redress the adverse consequences of a period of indif-

This fifth version of *Federal Historic Preservation Laws* contains 28 federal laws and portions of laws that pertain to the preservation of the United States' cultural heritage. Arranged chronologically, this publication demonstrates how the body of law has developed and grown over the course of the 20th century and beyond. Laws in this book span over a hundred years in time and cover a wide variety of subjects including preservation of historic buildings, disposition of abandoned shipwrecks, and repatriation of Native American artifacts. Past versions of Federal Historic Preservation Laws have helped everyone from government agencies and lawyers, to university professors and everyday citizens, to reference and understand the Federal framework of historic preservation law. This newest update aims to build on that function by presenting recent changes in the law in an intuitive format so that that groups and individuals may continue to draw upon it as a tool to preserve what makes their communities special.
